OFFICERS ELECTED!

The first ever officers for South Wake Amateur Radio Club are:

President Tim Ruffin W4TAR

Vice President Tommy Williams KI4VSO

Secretary Jennifer Avery KI4TFO

Treasurer Donn Harris NC4DH

Membership Director Dale Whitlock AI4WF

Director at Large Steve Mowels KA0GMY

Director at Large Ryan Avery NC4RA

PRESIDENT'S MESSAGE

BY W4TAR TIM RUFFIN

I should say first and foremost how lucky we are that the South Wake A.R.C. is composed of really wonderful people. The great distance that this group has come from a simple idea to a fully functioning radio club in just a couple of months, simply would not have been possible had it not been for the exceptional folks that have stepped forward and picked up a portion of responsibility and run with it. I want to say thank you for your efforts to get South Wake going.

Now with that said...it's good to be able to focus on the fun ham radio things now that most of the administrative stuff is out of the way. So, now we're off to put our money where our mouth is and get many of the group's ideas up and running. Over the next few

months you'll hear about, be ask to participate in, and develop the many interests our club members have voiced as 'what they would like to see happen' in this club.

We're in need of Elmers, School Demo Teams, Contesters, Field Day players, Public Service Providers, Teachers, Net Controls, Programmers, Newsletter Contributors, and the list goes on.

So get your ideas warmed up, we're finally getting to the fun stuff.

Tim W4TAR

SOUTH WAKE ARC AUGUST 2008 NET REPORT

BY NC4MP MARK PERKINS

Hello everyone! This is NC4MP Mark in "Beautiful" Pikeville with this month's net report.

We had a tremendous first full month for the net, it is just amazing to me how fast this net has grown in a relatively short period of time. The participation is just wonderful and we almost have all the nights filled with net controllers with just Saturday that remains open. Speaking of which anyone that would like to become a net control or just substitute please let me know. I'm sure you will have a blast calling a net they are a load of fun to do.

The numbers for the month are rock solid and I want to thank each and every one of you for taking part in the nets and participating the way you all have it is very much appreciated.

The numbers for the month are as follows:

Net sessions: 31
Members participating: 43
Visitors participating: 79
Total check-ins: 786
Average Check-ins per net: 25

We had 9 members to check into 20 or more nets this month and they are: NC4MP, KA0GMY, AI4UP, KE4RUN, AI4WF, AE4PC, WA2YBM, K9RII, & NC4RW.

The check-in Champ of the Month for the month of August 2008 is Mark NC4MP!

786 check-ins for the month of August that is fantastic! Averaging over 25 check-ins per net folks let me tell you, it just doesn't get any better than that! If things don't change we are

going to be even better for the month of September, I cannot thank you guys enough for the participation that you are giving the net because without you it just wouldn't exist!

I would like to let everyone know that on September 16, 2008 at 8:00 pm we are going to start a new net, it will be on the Carolina 440 UHF Link System! It will be at 8:00 pm right after our net on the 195. The purpose of this net is to help out Ron Casey K4JDR who has offered his link system to us as a back up or for use during any public service events that we may be doing. So, now we are going to do a net ONCE a week on Tuesday nights only on the Carolina 440 UHF Link System. So, that means that our Tuesday night nets now will be only 30 minutes and then we will switch over the 440 link system and participate in the new net.

For anyone who is not familiar with the Ron's link system here is the link to find a repeater in the link closest to you.
http://www.carolina440.net/repeaters_on_link.htm

Ok, folks that is about it for the month I want to thank you all again for what you are doing for the net and I do hope that you will continue to keep participating the way you have.

Remember the South Wake ARC net has become the NET by which ALL other nets in the area are JUDGED! Thanks for being a part of it!

73 from "Beautiful" Pikeville!

Mark Perkins
NC4MP

SWARC MINUTES OF THE SEPTEMBER MEETING
BY KI4TFO JENNIFER AVERY

The meeting was called to order at 7:03 pm by Tim Ruffin.

Nominations:

President: Tim Ruffin W4TAR and Anna Crissman KF4USQ
Vice President: Tommy Williams KI4VSO and Ken Medlin W4FXE
Secretary: Jennifer Avery KI4TFO
Treasurer: Donn Harris NC4DH and Jack Donnelly WA2YBM
Membership Chair: Dale Whitlock AI4WF
Members at large: Steve Mowels KAOGMY, Hank Montgomery K4HM, Mark Womack KJ4ECJ, Ryan Avery NC4RA

The floor was opened up for new nominations. No new names were mentioned other than those above.

Dale discussed the lifetime members – the temporary directors recommended that Danny Hampton be given lifetime membership. Motion was seconded and passed.

NEW BUSINESS:

LOGO: Tommy Williams presented possible logos to the group. The group voted on a logo. A round logo with the tower was passed 12/17

MEMBERSHIP APPLICATION: pro-rating memberships. Dale revised the membership application to make the prorating dues easier to understand. Motion made, seconded and passed.

NEWSLETTER: All submissions for the newsletter must be sent to Vessie Whitlock, AI4UP by Friday at 5PM. A proposal for a name for the Newsletter was passed around. The members reviewed the proposed names and a name was chosen. The new name for the newsletter is SWARCER News.

PUBLIC SERVICE CHAIR: The club needs someone to take over this position since Phil AE4PC is unavailable due to work commitments. Phil recommended: Tommy Williams and Thomas Bass. On the 2nd and 3rd weekends in October are two events, one in Fuquay Varina – Day in Downtown – the other is Oktoberfest in Holly Springs. We may be able to get a table at each event. Thomas talked to the people re the Fuquay-Varina event.

David Whitehurst is the club's newest ham. He received his ticket recently and his call sign is KJ4GIZ.

PROGRAM BY DANNY HAMPTON: Danny Hampton presented a program regarding PCRN and the 195 repeater. Danny opened it up to a Q&A at the end of the program. Danny said if anyone has any technical questions about PCRN and the 195 repeater, please send him an email to dhampton@ipass.net

When the new repeater goes up, we will have an 82.5 tone. We may also possibly have a new frequency when the new antenna goes up.

BACKUP: Ron Casey K4JDR is our back up repeater. His 440 Net meets once a week at 7:30 on Mondays – Tim asked that we check into it when we can to support him. Information about

the 440 is on the South Wake website: www.southwakearc.com
South Wake ARC will have a short abbreviated net on Tues at 8PM on the 440 link system. Will start next Tuesday.

NET Report: NC4MP reports that there were 786 check ins for the month, the average was 25 per night.

TREASURER'S REPORT: Dale said that there are 43 full active members and 4 associate members. 51% of the membership is a member of ARRL. Until tonight the Club had \$1,055.00 collected in membership alone and \$17 was collected for the sale of stickers. The antenna fund raised \$1,200 which was turned over to Danny Hampton.

Hank had an announcement the Bike Tour is this weekend in New Bern – they could use some help if anyone wants to help out. Information is on the website.

Donn, AI4OZ is the emergency coordinator for ARES. He will be announcing on repeater requesting volunteers for when and if we need help with any shelters. He is looking for volunteers. Hurricane Hanna did not affect us very much but when we have a big evacuation, Gov Easley will be directing traffic to our area. Ryan said Harnett County ARES is also looking for volunteers. To get involved with ARES, you must take a test and they are free on the website.

KI4TWW Haley talked to her friends at school – a few friends who saw her backpack and the South Wake ARC stickers showed interest in ham radio. She is working with a teacher she knows to help get a club set up at her school at Archer Lodge Middle School.

SECRETARY REPORT: Jennifer KI4TFO reported that the bank account was opened and that the paperwork for the incorporation was sent to the Secretary of State and it was returned with another form that needed to be filled out. She will send the information requested back tomorrow.

WEBSITE: David talked about giving 4-5 people access as administrators to the website. www.Prodigyfish.com is his site. Ryan and David discussed merging their two sites.

VE TEAM: Dale has a VE team coming to test on October 4th at Clayton EMS. If you are interested, see Dale. Dale is the liaison for the team. The team is meeting prior to the test session for a dry run.

PERMANENT MEETING SITE: Tim W4TAR is contacting a local Presbyterian Church has a large room with a kitchen. Tim asked if anyone knows any place to host a meeting, and if so, please contact him.

ELECTIONS: The club voted and the following people are the new South Wake ARC Officers:

PRESIDENT: Tim Ruffin
VICE PRESIDENT: Tommy Williams
SECRETARY: Jennifer Avery

continued on next page...

SWARC MINUTES CONT..

TREASURER: Donn Harris
 MEMBERSHIP CHAIR: Dale Whitlock
 BOARD MEMBERS AT LARGE: Steven Mowels and Ryan Avery

There were 37 people in attendance with the following members were present at the meeting:

Ryan Avery NC4RA
 Jennifer Avery KI4TFO
 James Staley KB4BLU
 Roy Avery KI4TWY
 Nancy Avery
 Donn Harris NC4DH
 Mark Perkins NC4MP
 Mark Womack KJ4ECJ
 Danny Hampton K4ITL
 Jack Donnelly WA2YBM
 David Whitehurst KJ4GIZ
 Jeremy Barnard KJ4FYX
 Vessie Whitlock AI4UP
 Haley Whitlock KI4TWW
 Katie Whitlock

Dale Whitlock AI4WF
 Ken Medlin W4FXE
 Tommy Williams KI4VSO
 Anna Crissman KF4USQ
 Chris Caudle KG4WFD
 Don Sharer AI4OZ
 Selene Montgomery KG4RMT
 Gloria Mowels
 Steven Mowels KA0GMY
 Hank Montgomery K4HM
 Tim Ruffin W4TAR
 Christy Fernandini KJ4AEO
 Gino Fernandini KI4YXO
 Nathan Fernandini
 Mike Ramsey KD4OKR
 Jim Young K9RII
 Hargrove Davis KE4RUN

Next meeting is first Monday of the month again at the Golden Corral.

Meeting adjourned at 8:55 PM.

NEW WEBSITE

Everyone please take a few minutes to go to www.southwakearc.com and look at the new website. Go ahead and register using your call sign as your username and see all the cool stuff. Some things are only available to registered users. Please let David Whitehurst (KJ4GIZ) know of any changes or additions you would like to see. His email is dlwhitehurst@gmail.com.

David needs feedback to make our website as great as we know it can be. The website is a product of your input. We need your comments and thoughts.

DONATIONS FOR ANTENNA REPAIR
TARGET EXCEEDED!

We collected \$1250 for repeater antenna repair! That's \$50 more than our target! Money has already been passed on to K4ITL Danny Hampton to order the antennas. Thank you to the following members for their generous donations:

Phil AE4PC
 Vessie AI4UP & Dale AI4WF
 Hank K4HM
 Gloria & Steve KA0GMY
 Anna KF4USQ & Glenn KF4RDN
 Barry KI4PMI
 Peggy KI4SHY & Don AI4OZ
 Jennifer KI4TFO & Ryan NC4RA
 Mark KJ4ECJ
 Donn NC4DH
 Mark NC4MP
 Tim W4TAR

TREASURY REPORT

Incoming:

Antenna Repair donations	\$1250.75
Membership dues	\$1055.00
Stickers sales	\$ 23.00
50/50 drawing—August	\$ 20.75
	\$2349.50

Outgoing:

Donations to K4ITL for repair	\$1250.00
Presenter meal at Sept. meeting	\$ 24.52
	\$1274.52

Cash on Hand: \$1074.98

AN INTRODUCTION TO FOX HUNTING

BY W2RDU JOHN FIORENTINO

To many, Fox Hunting conjures up visions of horseback riders, hunting dogs and a fox running for its life. Fortunately, Radio Amateurs recognize Fox Hunting as an exciting activity where participants utilize Radio Direction Finding techniques to locate hidden transmitters. Fox Hunting (Also known as RDF, Radio Direction Finding, T-Hunting or Transmitter Hunting) is a thrilling exercise to help radio amateurs hone their radio direction finding skills. The skills learned while fox hunting can be readily applied to locating other transmitter types such as emergency beacons, downed aircraft, lost hikers, RFI, and in some cases even track down illegal radio transmissions. Besides honing skills, fox hunting offers participants a wonderful opportunity to get out and enjoy nature, exercise and meet new friends with similar interests. Fox hunts are typically organized by clubs or individuals interested in the sport. Many hunts are conducted just for fun, while others are very competitive in nature with winners receiving awards or honorable mention in club publications.

Typically, participants meet at a predefined starting point. Here they will sign into a roster and will receive specific instructions regarding the hunt. Details such as the transmitter frequency, and hunt boundaries will be provided at this time. Depending on the hunt, boundaries may consist of specific locations such as the confines of a public park, a county, or in some cases an entire state. Fox hunting can take place on any amateur band that allows the specific mode being transmitted by the fox. Most commonly hunts are conducted on 2 meters, at a frequency of 146.565 Mhz. Popular hunting formats include, but are not limited to Mobile and Pedestrian Hunts.

Mobile Transmitter Hunts:

Participants of mobile hunts travel primarily by motor vehicle. Direction finding equipment and antennas are sometimes mounted directly to the vehicle, or are temporarily deployed through an open window or open top. When lacking dedicated equipment, participants often will stop their vehicles and take readings while on foot before resuming their hunt. This is an effective method, but it can also be time consuming, as the participant must stop, park, and then resume hunting after each reading. Often these types of hunts turn into foot hunts as the participants zero in on the transmitter. Winners are typically determined by who finds the transmitter first, but in the event of a tie, may take into account who traveled the shortest distance to the transmitter.

Pedestrian Hunts:

A sport form of fox hunting, whereby participants run on foot. Pedestrian hunting requires both physical stamina and keen radio direction finding skills. This form of fox hunting most often takes place in wooded areas, and requires orienteering skills, as well as the use of compass and GPS. Participants are clocked, and winners are determined based on the shortest times to locate the transmitter.

Equipment:

Fox Hunting equipment may range from very simple to the exotic and is limited only by the hunter's imagination.

Directional antennas such as hand held Yagis or Quads are essential tools of the fox hunter. Directional antennas may be rotated or flipped (polarity changed from vertical to horizontal) to locate the direction of a hidden transmitter. When attached to an HT or other portable radio, signal strength may be measured by using the signal strength meter built into most transceivers. Circular or Loop antennas are also very popular for pinpointing nearby transmitters. Tape measure Yagi's are popular and simple to build using common household items. Instructions may be found on-line by search for "Tape Measure Yagi".

Attenuators are another handy device in the arsenal of the avid fox hunter. These also can be built or purchased prefabricated. The attenuator allows the fox hunter to reduce incoming signals, thus preventing receiver overload as one gets close to the transmitter. With a little practice, fox hunters may also achieve attenuation by tuning the receiver slightly off-frequency, or the antenna may be removed all together for very close-by signals. Using one's body to shield incoming signals is also a popular method that requires no additional equipment. Competitive Fox Hunters utilize many different and exotic devices to track down the fox. These may include but are not limited to dedicated sniffers, doppler shift receivers, and time-difference-of-arrival radio direction finders.

For additional information regarding this exciting hobby, consider reading *"Transmitter Hunting, Radio Direction Finding Simplified"*.

AMATEUR RADIO TEST SESSION

BY DALE WHITLOCK AI4WF

Hi All,

The Capital Area Radio Testing Group has a testing session on Oct 4 at 9:30AM at the Clayton EMS building. Address is: 317 S Robertson Street, Clayton NC 27520. Please park behind the building.

Anyone interested in testing must bring a photo ID, \$14 test fee, and if upgrading, must bring the original and a copy of their license.

Any ARRL VE that would like to assist in the VE session please feel free to show up and we will assign you where we need help. Also all VEs need to be present by 9AM.

Anyone testing or VEs that are going to show up please let Dale or Bob know. Contact Dale AI4WF at AI4WF@nc.rr.com (919-553-4390) or Bob NC4RW rwells9@nc.rr.com (919-227-9104).

Directions

From Raleigh:

I 40 to exit 306 Hwy 70 Business East to Clayton. Red light at McDonalds turn left onto Robertson Street. The Clayton EMS building will be on right just past the baseball fields.

From Smithfield:

Hwy 70 West towards Clayton. Take Business 70 into Clayton and at red light at Walgreens turn right onto Robertson Street. Clayton EMS building will be on right just past the baseball fields.

There will be signs posted at the red light on Hwy 70 Business.

Hope to see a bunch of people there.

73,
Dale AI4WF
Team Liaison

PHASE 1

AUGUST 10, 2008

THE ONLY
ONE
REALLY
WORKING

THANKS
GLORIA!

LABOR DAY PIG PIC'N AT THE AVERYS

South Wake ARC's first official social event was a huge success. Approximately 50 SWARCers and SWARCettes plus guests invaded Harnett County on Sunday August 31st. There was plenty of good eats and good times to be had by all. Whether you were relaxing under the shade or splashing in the pool, there was no doubt you had a full belly and a smile on your face. Later in the afternoon, John W2RDU and his XYL entertained the masses with a good old fashioned fox hunt. Despite a quick shower, several members partied well into the evening. With such an awesome turn out, I can't wait for our next event. If you have any suggestions or ideas for future events, drop me a line at rwavery@charter.net. Jennifer and I would like to take this opportunity to thank everyone for coming out, bringing a dish, and adding to our collection of chairs. 73 Ryan Avery – NC4RA

PIG PIC'N PICTURES CONT...

GOOD FELLOWSHIP

AN INEXPENSIVE 2-METER ANTENNA

BY KJ4GIZ DAVID WHITEHURST

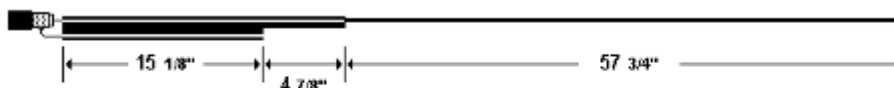

Figure 1

Anyone that's new to 2-meter may wonder what kind of antenna they need when they get a radio. I purchased an old ICOM IC-25A (offset with no tone) from eBay. I knew that I would need an antenna and didn't know whether I needed a 30 foot piece of wire or a 100 foot tower in the yard. I did know that I wanted one and would need it to talk on the club repeater. Google is a good thing but you have to weed through the junk to find the treasure.

Several people had told me to do a J-Pole and I created my first J-Pole using 300 ohm twin lead, solder, and black electrician's tape. It was a little weak to say the least. I got the group on 147.195 right away. So it did work, but after I moved it around in my office a couple times, a solder joint broke. That meant I would have to peel all that electrical tape mess. Well, I just cut my LMR400 with my best bolt cutters and went to Google again.

I found a nicer one that another HAM made and documented that used 300 ohm twin lead but wasn't a J-Pole exactly. It's about 8 foot long and it's strengthened with 1/4" dowel rod and tie-wraps. And, to finish it off, it's protected overall using 3/4" PVC and caps. I'll say no more but give you the link and just say it worked for me. And when I get my call sign, we'll know if it transmits as good as it receives. Here's the original link <http://www.rason.org/Projects/ant54/ant54.htm>
